

DRAFT GRATITUDE IMPACT REPORT

October 1, 2018 - September 30, 2019

Draft Gratitude saves draft horses from slaughter by providing a second chance and a place to call home. Our main focus is aged farming horses in need of a safe retirement. We try to intercept these horses before they end up at an auction.

We save as many as we can within our means. Our position on rescue will always be based on quality care over quantity of saves. We are an all-volunteer, nonprofit organization.
